RECOGNITION OF PRESIDING MEMBERS OF FACULTY

These guidelines are as follows:

1. The relief of workload to 40-60% of the individual's normal workload. The funding for this workload relief should be provided by the Dean to the relevant School.
2. The provision of \$4,000-\$6,000 per annum for the support of scholarly activities by the individual (such as research assistance and conference travel). These funds would not normally be used for direct salary loading, but the option of such a loading may be recommended by the Dean to the Vice-Chancellor for consideration. These funds should be provided by the Dean to the individual.
3. The relief of workload to 40-60% of the individual's normal workload for the session immediately following the end of their term as Presiding Member. The funding for this workload relief should be provided by the Dean to the relevant School.
